DETAILED ACTION

1. The applicant's amendment, filed May 12, 2003, overcomes all rejections put forth under 35 USC 112 in the office action dated February 4, 2003. Those rejections are now withdrawn.
2. The examiner maintains the rejections put forth under 35 USC 102 in the office action dated February 4, 2003 (see below).

Claim Rejections - 35 USC § 102

3. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
4. Claims 1-17 are rejected under 35 U.S.C. 102(b) as being anticipated by Robertson et al. (WO 95/10555).

Paragraph 8 of the office action dated February 4, 2003 contains the text of this rejection and how it pertains to claims 1-16.

The applicant has amended claim 17 to be a proper process claim by changing its dependency. The added limitation that additional moisture is applied to one or both of the substrates or the adhesive is present in the reference (page 13, lines 19-25). Therefore, Robertson et al. (WO 95/10555) anticipates claim 17.

Response to Arguments

5. Applicant's arguments filed May 12, 2003 have been fully considered but they are not persuasive.

Art Unit: 1711

6. The applicant argues that the adhesive in Robertson et al. (WO 95/10555) does not contain the amount of ethylene oxide the applicant claims. The examiner respectfully disagrees.

Robertson et al. (WO 95/10555) discloses an adhesive that comprises up to about 30% by weight of a polyol component (page 8, line 3). The polyol component may in turn include up to 90% of ethylene oxide. This indicates that the ethylene oxide content of the adhesive in Robertson et al. (WO 95/10555) can include up to 27% ethylene oxide based on the total weight of the adhesive (90% of 30%), meeting that limitation of the current claims, which only call for more than 2.5% ethylene oxide based on the total weight of the adhesive.

Conclusion

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
